# How to Load your Christmas Tree

Make sure your tree is disassembled and the sections are fully compressed.

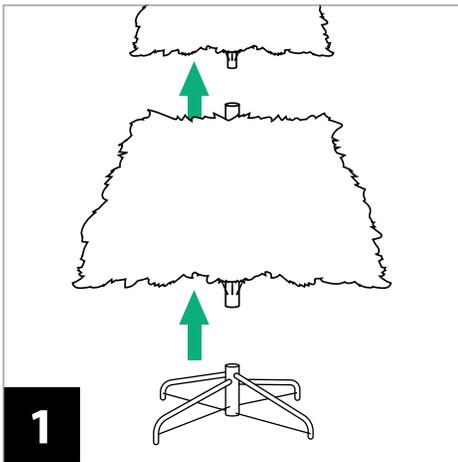

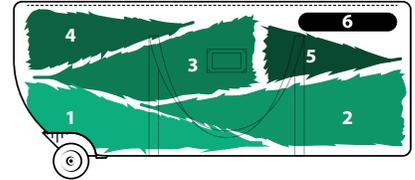

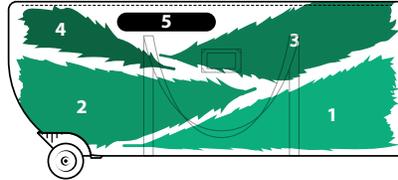

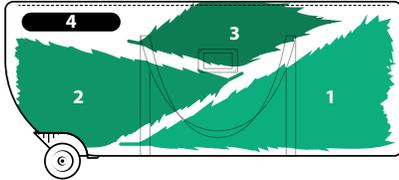

Three Section Tree

Four Section Tree

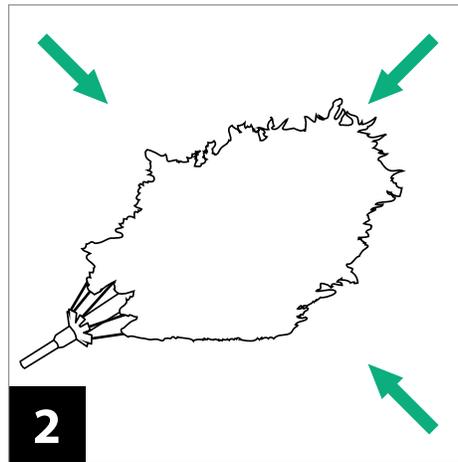

Five Section Tree

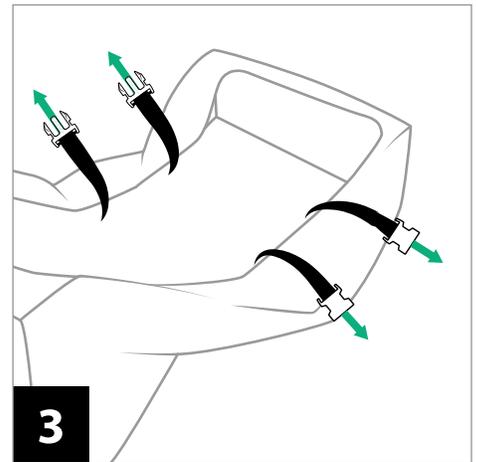

1

Separate the sections of your Christmas tree.

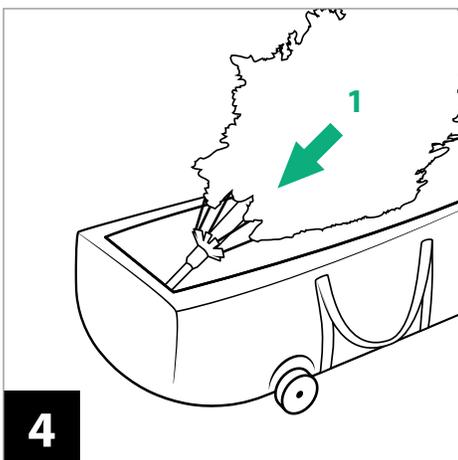

2

Compress the branches on each section as small as possible.

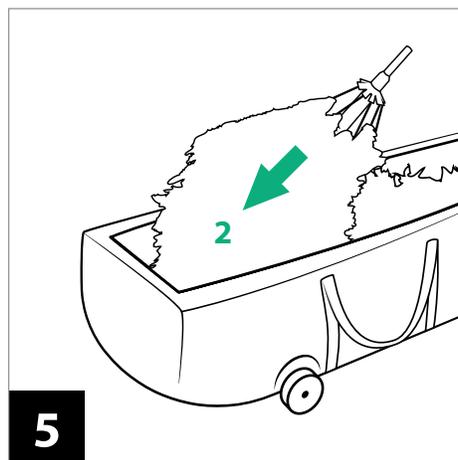

3

Position the compression straps on the outside of the bag .

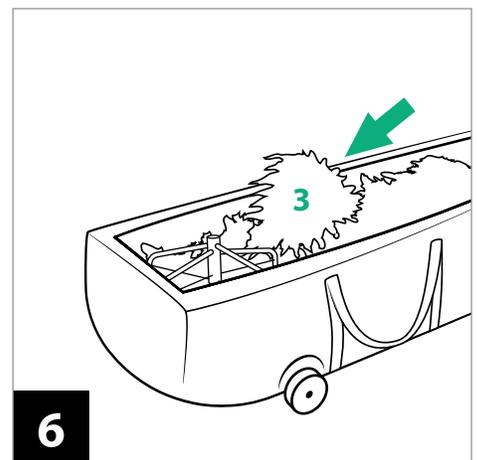

4

Insert the largest tree section, trunk side toward the wheels.

5

Next, Insert the second largest section opposite of the first.

6

Lastly, place your remaining sections and stand in the bag.
